OF CANADA

**For Immediate Release**

**Women's Mosque of Canada continues to shine a beacon of hope  
as it enters its 3<sup>rd</sup> year in Canada**

April 19, 2021: Toronto, The Women's Mosque of Canada marks its 3<sup>rd</sup> anniversary since its launch in 2019 as the first Women's Mosque in Canada. Despite being in a state of perpetual lockdown over the last 1 year, the mosque continues to see growth in its membership.

The mosque's virtual community continues to expand where women can connect with their faith and like-minded sisters across Canada.

*"Ours Women's Mosque of Canada is pleased to experience the ongoing growth during the lockdown. Women congregants continue to join and spread the word looking for a faith-based space. We are grateful to our community for continued support including creating the space of the healing for Muslim Women within the faith."* says Imama & Co-Founder, Farheen Khan.
